

Corporation Shooting Activity Pricing Policy

When a company or group of people want to use the Range (other than Boy Scouts and Youth Birthday Parties) we have established the following guidelines.

Minimum Charge for the Range is based on the total number of people, length of time desired by the client and experience level of the participants shooting.

We have found that by discussing these events with you we can schedule and create a unique shooting experience that will be the hit of any offsite you will have.

Please call: 949 - 348 - 0352 and ask for the Manager to schedule your event or fill out our form and make sure all contact information is on it.

We supply the trained RSO's to support them and be with them while they are on the range

These events can only be scheduled during the weekdays and Saturday morning before regular opening hours. Please make sure to fill out the reservation form so that we can confirm your time for the activity. Each activity will have a minimum of TWO RSO's.
