

We have changed the dates for the class each month to the 2nd (second) WEDNESDAY at 6PM to 10PM

Classes Support By:

PLEASE READ ALL OF THIS DOCUMENT BEFORE CALLING THE INSTRUCTOR

In most states, hunters cannot hunt legally unless they have had some type of formal education in the proper handling of firearms, as well as a basic understanding of what hunting is and means to the environment.

Today, California requires hunter education training for all persons who have not formerly held a California hunting license, or who do not have a hunter education certificate of completion from another state or province to attend, complete and pass a test to attain a Certificate. California has many 11 hour classes and they are listed on the DGF website.

The following "On-Line" courses are not meant as a beginner course, as they are based on the premise of some past hunting experience and understanding of the terms and safety principles one learns as they grow up around hunting. That is not to say we will turn anyone away, we will not. It means that those individuals that do not have exposure to hunting, or are younger will find it difficult to pass the test the first time.

California on-line course options for you;

HunterEam.com Kalkomey Interprises International Hunter Education Association.

All of these sites have an on-line course that you can run through at your own pace. You can **AS AN OPTION** take their **PRACTICE** test online that you will have to pay for. This fee supports their efforts for hunter education nationally. This test is **OPTIONAL** and will not count towards the four hour portion of the HE Certificate. If you do not complete the online material, we will quickly see the results when you take the test at the end of the 4 hour portion.

The on-line course alone will **NOT get you a valid hunter education certificate. You must complete the **4** hours as well.**

Please Note: Instruction is being done at an Indoor Shooting Range and ALL students under the age of 18 MUST have an Parent or other legal Guardian with them the entire time they are in the class - NO EXCEPTIONS

You can attend the class at On-Target Indoor Shooting Range or find a class on the list of [home study/on-line instructors](#).

The 4 hour class consists of a:

Review the material from the on-line course(s)

Review of the California specific laws

Review of the additional safety/survival information

Review of the current hunting laws location (where do I go to get them)

100 questions test – T/F & multiple choice & 6 fill questions

Class dates for On-Target are:

On-Target Indoor Range Class Schedule:

Monthly Schedule

Classes are 2nd Wednesday
of each month 6pm to 10pm

*** Range closes at 9 PM to the general Public**

The class is open enrollment and we have plenty of room for students – no reservation necessary – just show up on one of the two days listed above. The RANGE does charge \$15 for the use of the classroom, so please be prepared to pay the range at the time you register for the class at the counter.

Successful completion of the class and a passing grade of 80% or better on the test, you will be issued a Certificate that day and you can immediately purchase a Hunting license from a local sporting goods store.

Please do not call for special days or last minute classes – we are a volunteer organization and cannot support lack of planning issues with hunters that suddenly find they have to have a certificate today for a hunt tomorrow. We DO NOT get paid for our efforts and WILL NOT accept payment for special classes.

Please note - once in a while we do have to cancel a class and we try to post that on our website.
