On-Target's "Ladies Only" program is designed to create a comfortable experience for women shooters. We find that our lady shooters have a more relaxed experience in Lady only classes with instruction by our team of female instructors who cater to the unique needs of women. It is our goal to make each of our ladies SAFE, COMFORTABLE, and ACCURATE with a firearm.

On Targets Secondary training class builds on the foundation of safe pistol handling established in the Introductory Class. The **Women's Second Step Handgun Course** is designed to improve your marksmanship skills and expose you to a greater variety of firearms. Our Lady shooters will have the opportunity to shoot both revolvers and semi-automatics from some of the biggest names in firearm manufacturing. The Second-Step Class is ideal for shooters wishing to continue their firearm training in safe handling and marksmanship. As you learned in the first class, fundamentals and consistency are key to good marksmanship and practicing with certified instructors is the way to do it right!

Each \$85.00 class is two hours long and includes all required materials needed to participate in the class (study materials, pistols, ammo and targets) More importantly, the instructor to student is 1 to 3 students—in this way we can be assured that each student will get the attention they need.

We also offer Shot Gun classes, Rifle lessons, and Firearm Selection classes so that we at On Target can meet all of your shooting needs. Come shoot with us! You won't be disappointed!

**Shoot Like A Girl---If You Can!**
